# MONTGOMERY TABLE WORKS

MONTGOMERY, PENNSYLVANIA, U. S. A.

MANUFACTURERS OF

## EXTENSION TABLES AND SIDEBOARDS

1901

LARGEST TABLE AND SIDEBOARD FACTORIES IN THE EAST.

Factory No. 1, Tables . . . . . Factory No. 2, Sideboards.

H. M. WELLER and WILLIAM DECKER, PROPRIETORS.

# A FEW WORDS TO THE TRADE

---

WE THANK you for your generous custom in seasons past. The line shown in the following pages we confidently believe excels our previous efforts, which have met with such a hearty and substantial reception by the trade.

The causes and points of merit which have contributed to the success and popularity of our products have not been forgotten nor neglected.

We use the finest oak lumber in the market. It is not only thoroughly air-seasoned, but our kiln capacity of 250,000 feet insures the perfect condition of every stick used.

We employ skillful and experienced workmen, artistic designers, and our factories are equipped with the latest and most improved machinery. We have the secret of imparting a brilliant and durable finish, a quality which has added greatly to the reputation of our goods. The illustrations in this catalogue are made by the half tone engraving process direct from photographs of the goods and show the pieces as they actually look.

Our factories are located along both the Philadelphia & Reading and the Pennsylvania Railroads, and we are thus enabled to command quick routing and lowest freight rates. No charge is made for packing or crating. Both factories are on the same siding, permitting shipment of mixed cars.

We feel confident we merit a continuance of your trade.

# TABLES

The beauty and stability of the tables are manifest in the following designs. Illustrations are from photographs by the half tone process.

Our **knock-down** system is unexcelled. It permits of most compact and safe shipment. It is simplicity itself, and any boy can adjust or set up the tables in a moment's time. The only work required being the putting on of four nuts.

All tables are shipped K. D. unless otherwise ordered.

Can make up mixed car of tables and sideboards when desired.

# SIDEBOARD TALK.

---

IN PLACING our latest, and what we believe our finest line before the trade, we are constrained to call particular attention to the output and equipment of our Factory No. 2, which is devoted exclusively to the manufacture of Sideboards.

We have installed in this factory the very latest improvements in the class of wood-working machinery used. For range of work, completeness and facility it is no where equaled. We are thus enabled to turn out the finest class of work at minimum expense, and are therefore prepared to lead the market with a first-class line of Sideboards at a low price.

Our Sideboards are all constructed with solid post corners, back paneled and framed in, making a rigid case. The workmanship and finish are of the standard which has gained for our output such an enviable reputation.

We have ever recognized the importance of prompt shipment, but are pleased to be able to promise still greater effectiveness in this direction.
